OFFICE OF LEGISLATIVE COUNSEL

Friday - 20 December 1963

25X1
STATINTL
1. [] JSW) Talked with Senator Dodd with reference to his 12 o'clock meeting with Mr. William J. Crockett, Deputy Under Secretary for Administration, Department of State. It was indicated to Senator Dodd that our concern was with certain of the questions which were included in a request from Senate Internal Security Subcommittee for answer in writing by the Department which dealt with [] and queried whether he was in fact a CIA employee. Dodd did not recall this topic and queried his office staff including Sourwine and the document requesting this information was never identified. Dodd speculated possibly it was in a memorandum signed by all members of the Subcommittee which he had personally delivered to Rush on October 5. In any event, Dodd appreciated our concern and said if he had known CIA was brought up in any of these questions he would have deleted them. I explained that Mr. Crockett would suggest that they answer these particular questions by saying these had been covered in oral conversation. Dodd was completely sympathetic and understanding and I do not believe there will be any difficulty. Mr. Helms has been notified and we will attempt to identify the document working back through Bannerman to the Department.
